

BOOK NOW ROB AVERY ATPL THEORY COURSES

FOUR ATPL SUBJECTS DELIVERED ONSITE

The four most challenging subjects are covered in more depth and over a greater number of days than may be offered elsewhere. This gives you more subject exposure time to significantly increase your prospects of a first-sit exam pass. The idea behind these courses is to have you ready to sit the CASA exam at course end. The extra class time also allows for a more personalised learning experience enhanced further through limited student numbers. You will not find yourself competing with dozens of other students for timely instructor guidance. Potential students are advised to book early to avoid disappointment.

AFPA Flight Planning
3 – 16 January 2022
